Our key initiatives and programs include:

- **Kambarang Place** provides accommodation and professional case management services to sole Aboriginal women who are escaping domestic violence, homelessness or other life crises.
- **Harmony Place** provides professional case management and accommodation services to women with dependent children who are escaping domestic violence, homelessness or other life crises.

Both women's refuges have support programs available to women in the community experiencing violence and abuse including the **Ruah Living Free Women's Program**.

- **Safe at Home** service provides case management, security advice and upgrades for women and children in the Perth south eastern metropolitan corridor, after a perpetrator has left the property. This allows women and children experiencing domestic violence to stay in their own home. Information and referral pathways to programs promoting healing and recovery from trauma are key aspects of service provision.
- **Family and domestic violence Co-ordinated Response Service** operates in the Perth south eastern metropolitan corridor and is a closed referral service providing a coordinated response where there is a high risk of continuing violence.
- **Specialist Consultancy: Perpetrator accountability** offers an innovative consulting service to men's behavioural change providers and the family and domestic violence sector. This service assists providers to place the safety and wellbeing of women and children at the core of their program response to perpetrators of violence. Drawing from our professional expertise in men and women's domestic violence programs, our consultancy also provides expert advice to support the implementation of the Practice Standards for Perpetrator Intervention: Engaging and Responding to Men who are Perpetrators of Family and Domestic Violence.
